Sunshower

With this product, Sentavi brings all the goodness of the sun into your bathroom. This exclusive system allows you to tan while taking a shower. Your bath time ritual becomes a delightful experience of water and light, giving you the feeling of freshness and warmth. Sunshower brings beauty, relaxation and harmony of body and mind. Looking great with a minimum of effort! The Sunshower offers a sensible way of tanning, so that a healthy tan can become part of your daily beauty routine and it will stimulate the production of vitamin D.

The timeless and surprisingly neutral design of the Sunshower is suitable for any type and style of bathroom. Due to the high and durable quality of the used materials, the Sunshower is guaranteed to give you years of carefree pleasure. The Sunshower is standard deliverable in anodised aluminium, but can be adjusted to your own taste and style as the frame is also available in stainless steel, chrome and brass. Imagine: the Sunshower can be your very own bespoke jewel of the bathroom!

Through its unique combination of filters, lights and reflectors the Sunshower covers the entire body. With its UV-spectrum, approximating on natural sunlight, the Sunshower allows you to gain a natural and even tan.

The Sunshower is equipped with double UV-filters, which protect the skin. It uses Philips Cleo Swift lamps and contains five 400 Watt lamps per unit. It is very easy to clean. The standard frame is easy to replace by one of the aluminium, stainless steel or chrome decorative covers. The Sunshower is energy efficient and its system has several quality marks: KEMA-keur, CE keur, CB test.
